INDEPENDENT AUDITOR'S REPORT

Board of Directors Douglas County School District No. 4 Roseburg, Oregon 97470

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Douglas County School District No. 4 (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, certain pension schedules, certain other post-employment benefit schedules, and the general and major special revenue governmental funds budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to management's discussion and analysis, pension schedules, and other postemployment benefit schedules in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on management's discussion and analysis, pension schedules, and other post-employment benefit schedules because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The general and special revenue major governmental funds budgetary comparison information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the general and major special revenue governmental funds budgetary comparison information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not required as part of the basic financial statements. The schedule of expenditures of federal awards is presented for additional analysis as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award*, and is also not a required part of the basic financial statements.

The other supplementary information as listed in the Table of Contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Other Reporting Required by the State of Oregon

In accordance with Oregon State Regulation, we have also issued our report dated December 17, 2020, on our consideration of the District's compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations. The purpose of that report is to describe the scope of our testing necessary to address the required provisions of ORS, and not to provide an opinion on compliance with such provisions.

That 6

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Douglas County School District No. 4 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with the basic financial statements and the accompanying notes to those financial statements. It should also be noted that all amounts included in text below are rounded for ease of reading.

FINANCIAL HIGHLIGHTS

- In the government-wide statements, the assets and deferred outflows of the District exceeded liabilities/deferred inflows at June 30, 2020 by \$5.0 million. Of this amount, \$36.3 million represents the District's net investment in capital assets, \$490 thousand is restricted for debt service, and the deficit of \$31.7 million is considered unrestricted.
- For the fiscal year ended June 30, 2020, the District's total net position increased by \$10.2 million. In the prior year, the District's total net position increased by \$5.5 million. The positive performance during fiscal 2020 can mostly be attributed to an increase in the State School Fund and a decrease in expenditures.
- The District's governmental funds report a combined ending fund balance of \$20.4 million, an increase of \$4.8 million from the prior year.
- At the end of the fiscal year, unassigned fund balance in the general fund was \$10 million or 16.8 percent of total general fund expenditures. In total, the general fund balance increased by \$3 million from the prior year.
- The District's total long-term debt decreased by \$3.7 million during the 2019-2020 fiscal year as a result of scheduled principal payments.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components:

- 1) Government-wide financial statements
- 2) Fund financial statements
- 3) Notes to the basic financial statements.

This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

Statement of Net Position. The Statement of Net Position presents information on all of the assets and liabilities of the District at year-end. Net position is what remains after the liabilities have been recognized. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Statement of Activities. The Statement of Activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

In the government-wide financial statements, the District's activities are shown in one category:

Governmental activities. Most of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

The government-wide financial statements can be found as listed in the Table of Contents of this report.

Fund financial statements

The *fund financial statements* provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be categorized as governmental funds.

Governmental funds. The *governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government-wide Statements of Net Position and Activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Special Revenue, Debt Service, and Capital Projects Funds, all of which are considered to be major funds.

The basic governmental fund financial statements can be found as listed in the Table of Contents of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Notes to the basic financial statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Information such as significant accounting policies and detail of certain assets/deferred outflows and liabilities/deferred inflows are included in the notes which should be read in conjunction with the basic financial statements.

The notes to the basic financial statements can be found as listed in the Table of Contents of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's assets/deferred outflows exceeded liabilities/deferred inflows by \$5.0 million at June 30, 2020. At June 30, 2019 District liabilities/deferred inflows were greater than assets/deferred outflows by \$5.2 million.

Increase

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

As noted previously, net position may serve over time as a useful indicator of a government's financial position. Net position increased by \$10.2 million from the prior year.

Capital assets, which consist of the District's land, buildings, building improvements, vehicles and equipment, represent about 45.3% of total assets/deferred outflows. The remaining assets consist mainly of cash and investments, grants and property taxes receivable, inventories and deferred outflows related to pensions.

The District's largest liabilities consist of general obligations, PERS bonds, and full faith credit obligations, unfunded OPERS obligations, and unfunded post employment benefit obligations. Other more current liabilities consist of payables on accounts, accrued salaries and benefits, and unearned revenue.

A large portion of the District's net position reflect its investment in capital assets (e.g., land, buildings, vehicles and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students and other District residents; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes and state school fund support), since the capital assets themselves cannot be used to liquidate these liabilities. The majority of the capital related debt is a general obligation of the District for which the District has unlimited taxing authority under the Oregon constitution.

Governmental activities. When compared to fiscal 2019, the District's annual change in net position improved by \$4.7 million (as fiscal 2019 reported an increase in net position of \$5.5 million). The positive trend can primarily be attributed to an increase in the State School Fund other operating grants and contributions and a decrease in expenditures.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At June 30, 2020, the District's governmental funds reported combined ending fund balance of \$20.4 million, an increase of \$4.8 million from the prior year. Approximately \$10 million (49.4%) of the ending fund balance constitutes unassigned *ending fund balance*, which is available for spending at the government's discretion.

General Fund. The General Fund is the chief operating fund of the District. At June 30, 2020, the fund balance was \$10.2 million. This is an increase of about \$3 million (42%) from the previous year. The general fund unassigned balance represents 16.8 percent of total general fund expenditures. This is an increase when compared to 2019.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (CONTINUED)

Special Revenue Fund. The Special Revenue Fund is used to account for Federal, State, and Local grants, as well as our food service and associated student body. All funds are utilized to carry out specific programs, and the majority of the ending fund balance is committed (\$3.4 million) to associated student body programs and activities and grant related activities. The fund balance increased by \$127 thousand (3.5%) from the previous year. Special revenue funding has become much more volatile over the last four years as state and federal stimulus programs are established for short periods of time. As general funding continues to be impacted by the economy, our reliance on special revenues increases.

Debt Service Fund. The Debt Service Fund has a total fund balance of \$4.9 million, \$490 thousand of which is restricted for the payment of general obligation bond debt service, and \$4.4 million is assigned for pension obligation bonds debt service. The increase in fund balance during the current year was about \$1.1 million. This increase can be attributed to the ongoing internal charge intended to offset future debt service increases associated with the pension obligation bonds.

Capital Projects Fund. The Capital Projects Fund has a total fund balance of \$1.5 million, all of which is assigned for ongoing capital projects. The fund balance increased by \$500 thousand during the current fiscal year as a result of the completion of multiple seismic projects.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment, and construction in progress. As of June 30, 2020, the District had invested approximately \$38.4 million in capital assets, net of depreciation, as shown in the following table:

		Governmen	tal Act	ivities	(De	crease ecrease) From
	June	e 30, 2020	June	e 30, 2019	June	e 30, 2019
Capital assets (net of depreciation):						
Land	\$	3,567	\$	3,567	\$	-
Construction in progress		-		1,974		(1,974)
Buildings and improvements		33,483		30,319		3,164
Vehicles and equipment		1,353		1,465		(112)
Total capital assets (net)	\$	38,403	\$	37,325	\$	1,078

Additional information regarding the District's capital assets can be found in the notes to the basic financial statements of this report.

Long-term debt. At the end of the current fiscal year, the District had outstanding long-term debt of \$27.9 million, consisting of general obligation debt, pension obligation debt, and other full faith and credit obligations.

CAPITAL ASSET AND DEBT ADMINISTRATION (CONTINUED)

	(Governmen	tal Act	ivities	(De	crease ecrease) From
	June 30, 2020		Jun	e 30, 2019	19 June 30, 20	
Debt obligations:						
General obligation bonds	\$	1,955	\$	4,135	\$	(2,180)
Pension obligation bonds		25,725		26,982		(1,257)
Other obligations		205		420		(215)
Total debt obligations	\$	27,885	\$	31,537	\$	(3,652)

During the current fiscal year, the District's total debt decreased by \$3.7 million. This was the result of scheduled principal payments.

Additional information on the District's long-term debt can be found in the notes to the basic financial statements of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The most significant financial challenge facing the district is the impact of the COVID-19 pandemic. The district is funded on a per student basis. This is called the Average Daily Membership, or ADM. During this COVID pandemic, the district has had many parents opt to home school or enroll their students into other online learning opportunities. Our ADM has decreased by over 500 students as a result of parents opting out. Based on the current per student funding this could be a \$4.5 Million budget deficit for the 2021-22 fiscal year. It is unknown at this time how many of those students will return when schools are able to fully open to in-person instruction. Although the district has received supplemental funding to assist with COVID expenditures, it has not entirely covered the additional expenditures the district has experienced to provide comprehensive remote learning and to create safe environments in our schools. Overall, the most difficult part of the COVID crisis is the uncertainty all school districts face. Staff are torn between wanting students back in the classroom and fear of the pandemic for themselves and their students. We know some students are not being successful during distance learning, but at this time COVID numbers are up in our county and the state metrics will not allow the district to open to in-person instruction.

PERS is, and will continue to be, a driving factor in the district's ability to manage its expenditures. On a positive note, the district took advantage of new PERS side account rules and opened a new, separate side account in the 2018-19 year in the amount of \$6 million. That \$6 million deposit, plus an additional contribution to the side account of \$875 thousand made in 2019-20 qualified the district for a 25% state match of funds and a deposit from the state of \$1.7 million increased the available funds in that side account. That account will be used to lower future rate increases by 1.47% and is currently earning interest. Rates for the 2021-23 biennium were based on the rate of return in December 2019 and are projected to decrease from the previous biennium. Our Tier I/Tier II employer contribution rate will decrease by 5.67% to 9.65% and our OPSRP employer contribution rate will decrease by 3.33% to 6.54%. The rates are decreasing due to changes in PERS and diversion of part of the 6% match away from employee accounts and limitations on the maximum final average salary and because the district funded a new side account as described above. The slowdown of the state economy will have an adverse impact on PERS rates beyond the 2021-23 biennium.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET (CONTINUED)

Oregon's state school fund remains the district's single largest source of funding. For the year ended June 30, 2020, state school fund support provided about 67% of the district general fund program revenue, the same level as in the previous years. When combined with local property taxes, county and common school fund dollars, and federal forest fees which are included in the school fund formula, these sources provide about 96% of the resources for the general fund. Federal forest fees were not anticipated to be received but a late appropriation from the federal government resulted in a payment coming in 2019-20.

In the 2019 session, the Oregon legislature passed the Student Success Act. It was anticipated that in the 2019-20 year the district could receive up to \$4.6 million. When the pandemic hit and business slowed in the state, the amount of funding for SSA declined. Our district has available approximately \$1.5 million in funding for the current year and has begun some of the many enhancements to services to students that were planned.

The school board put a bond levy request before the voters in May 2020. Although the vote was close, the measure did not pass. The school board for the Roseburg School District is considering putting a new levy request before voters in November 2021. If successful, the bond sale proceeds would be used for safety, building repairs and renovations.

REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Office at 1419 NW Valley View Drive, Roseburg, Oregon 97471.

DOUGLAS COUNTY SCHOOL DISTRICT NO. 4 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2020

NET CHANGE IN FUND BALANCE		\$ 4,783,088
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. In the statement of activities, depreciation is reported as an expense, thus allocating the asset over its useful life. This is the amount by which depreciation and reductions exceeded capital outlays. Expenditures for capital assets Less current year depreciation	\$ 2,692,232 (1,614,780)	1,077,452
Long-term debt proceeds are reported as other financing sources in the governmental funds. In the statement of net position, issuing long-term debt increases the liabilities. Repayment of principal is an expenditure in the governmental funds and a reduction of the liability in the statement of net position. Accrued compensated absences payable Accrued interest Debt principal repaid	\$ (12,580) 744,461 3,652,323	4,384,204
Government funds report other post-employment benefits (OPEB-RHIA) contributions as expenditures. In the statement of activities, the cost of OPEB (actuarially determined) is reported as either pension expense or income. This is the net change in OPEB related items (including deferred outflows and inflows).		99,765
Governmental funds report the effect of premiums, deferred charges, discounts when debt is issued. These amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences: Amortization of deferred charge associated with advance refunding		(92,894)
In the statement of activities, contributions for other post employment benefits greater than the actuarially determined amount decrease the other post employment benefit obligation. In the governmental funds, the entire contribution is recognized as an expenditure. This is the amount by which the obligation decreased:		432,605
Government funds report pension contributions as expenditures. In the statement of activities, the cost of pension benefits (actuarially determined) is reported as either pension expense or income. This is the net change in pension related items (OPERS, including deferred outflows and inflows).		(401,433)
Property taxes which are not measurable and available are unavailable in the governmental funds. In the statement of activities property taxes are recognized when levied.		(62,234)
CHANGE IN NET POSITION		\$ 10,220,553

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Douglas County School District No. 4 (the District) was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected seven-member Board of Directors (Board) who approves the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts which provide service within the District's boundaries. However, the District is not financially accountable for any of these entities and, therefore, none of them are considered component units or included in these basic financial statements.

Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. As a general rule, eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, materials, supplies or services provided, (2) operating grants and contributions, and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Separate financial statements are provided for governmental funds. The District has no proprietary funds or fiduciary funds.

Net Position is reported as restricted when constraints placed on asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All the District's funds are categorized as major funds.

The District reports the following major governmental funds:

General Fund - This is the District's primary operating fund and accounts for all revenues and expenditures, except those required to be accounted for in another fund.

Special Revenue Fund - This fund accounts for funds received through Federal, State and Private grant sources. It is also used to account for the District's school lunch program, major curriculum and technology purchases, and special revenues derived from Associated Student Body activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements (continued)

Debt Service Fund - This fund provides for the payment of principal and interest on debt obligations of the District. Principal revenue sources are property taxes and charges to other funds.

Capital Projects Fund - This fund accounts for activities related to the acquisition, construction, equipping and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds, interest earnings and transfers from other funds.

Measurement Focus and Basis of Accounting

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Government fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Cash, Cash Equivalents and Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less. Short-term investments are stated at cost, which approximates fair value.

The District's investments may consist of time certificates of deposit, banker's acceptances, commercial paper, U.S. Government Agency securities, and the State of Oregon Treasurer's Local Government Investment Pool (LGIP). The District's investments are reported at fair value at year end. Changes in the fair value of investments are recorded as investment earnings. The LGIP is stated at cost, which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments, the Oregon Legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP. The investments are regulated by the Oregon Short Term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property Taxes Receivable

Ad valorem property taxes are levied on all taxable property as of January 1 preceding the beginning of the fiscal year. Property taxes are levied and become a lien on July 1. Collection dates are November 15, February 15, and May 15 following the lien date. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the statement of net position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for un-collectible taxes has been established. All property taxes receivable are due from property owners within the District.

Accounts and Other Receivables

Accounts receivable and other receivables consist primarily of charges for services, claims for reimbursement of costs under various federal and state grant programs and refunds of prior year expenditures.

Grants

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as intergovernmental receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

Inventories

Inventories consist of supplies held for sale or use by the District. Inventories are charged as expenditures when used and are stated at cost using the average-cost method.

A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when consumed and are stated at their fair market value based on guidelines provided by the USDA.

Capital Assets

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one reporting period. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and Site Improvements	10 to 50 years
Vehicles and Equipment	5 to 30 years

Pensions

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payment (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Pensions (continued)

The District offers its employees a tax deferred annuity plan established pursuant to Section 403(b) of the Internal Revenue Code.

Post Employment Benefits

Licensed employees, classified employees, and eligible administrative employees are eligible at age fiftyeight, subject to terms of employment and bargaining agreements, for early retirement benefits. Eligible employees who elect early retirement and meet certain criteria are entitled to payment of group medical insurance premiums at the proportion currently being paid by the District. Such costs are recorded as expenses in the Special Revenue Fund and funded as premiums become due. Employees hired after July 1, 1990 are generally not eligible for benefits. In the Government-wide financial statements, the District reports its liability for other post-employment benefits consistent with established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees. Such costs are recorded as expenses in the Governmental Funds and funded as premiums become due.

Compensated Absences

It is the District's policy to permit employees to accumulate limited earned but unused vacation and unlimited sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued when earned in the government-wide financial statements and must be used within the next fiscal year.

Long-Term Debt

In the government-wide financial statements, long-term debt is reported as a liability in the statement of net position. Bond premiums and discounts and deferred charges associated to advanced refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premiums, and discounts.

Deferred charges associated to the advance refunding are reported as deferred outflows of resources. Bond issuance costs are expensed as incurred.

In the fund financial statements, bond premiums and discounts, and deferred charges are recognized when incurred and not deferred. The face amount of the debt issued, premiums and discounts received on debt issuances, and deferred charges are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as other financing uses.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Deferred Outflows/Inflows of Resources (continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition on net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Additionally, the District has one type of deferred inflows which arises only under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet.

Net Position and Fund Balance

In the government-wide financial statements, equity is classified as net position and displayed in three components:

- Net investment in capital assets consists of net capital assets reduced by outstanding balances
 of any related debt obligations and deferred inflows of resources attributable to the acquisition,
 construction, or improvement of those assets and increased by balances of deferred outflows of
 resources related to those assets.
- Restricted net position consists of net position with constraints placed on the use by either (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows or resources related to the restricted assets.
- Unrestricted net position consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

In the fund financial statements, governmental fund equity is classified in the following categories:

- *Non-Spendable* Includes items not immediately converted to cash, such as prepaid items and inventory.
- *Restricted* Includes items that are restricted by external creditors, grantors, or contributors, or restricted by legal constitutional provisions.
- Committed Includes items committed by the District's Board of Directors, by formal board action.
- Assigned Includes items assigned for specific purposes, authorized by the District's Superintendent and/or Chief Operations Officer.
- Unassigned This is the residual classification used for those balances not included in another category.

The District has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable), and lastly unassigned fund balance.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Budget

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America for the governmental fund types, except capital outlay expenditures (including items below the District's capitalization level) and debt service which are budgeted by major function in governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detailed budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and/or appropriation resolution.

Supplemental budgets less than 10% of a fund's original budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval.

During the fiscal year ended June 30, 2020, the District was in compliance with Local Budget Law.

Use of Estimates

The preparation of basic financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Future GASB Pronouncements

The following GASB pronouncements have been issued, but are not effective as of June 30, 2020:

GASB Statement No. 84, *Fiduciary Activities*. Issued January 2017, this statement establishes criteria for identifying fiduciary activities of all state and local governments. GASB 84 will be effective for the District for fiscal year ending June 30, 2021.

GASB Statement No. 90, *Majority Equity Interests*. Issued August 2018, the primary objective of this statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization; and to improve the relevance of financial statement information for certain component units. GASB Statement No. 90 will be effective for the District for fiscal year ending June 30, 2021.

GASB Statement No. 87, *Leases*. Issued June 2017 to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments and increases the usefulness of governments' financial statements. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB Statement No. 87 will be effective for the District for fiscal year ending June 30, 2022.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Future GASB Pronouncements (Continued)

GASB Statement No. 89, Accounting for Interest Costs Incurred Before the End of a Construction Period. This statement was issued June 2018 to establish accounting requirements for interest cost incurred before the end of a construction period. The objectives of the Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. GASB Statement No. 89 will be effective for the District for fiscal year ending June 30, 2022.

GASB Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. GASB Statement No. 91 will be effective for the District for fiscal year ending June 30, 2023.

The District is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the District's financial statements.

The District will implement new GASB pronouncements no later than the required effective date. The District is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the District's financial statements.

NOTE 2 – CASH AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash and Investments."

Cash and investments are comprised of the following as of June 30, 2020:

Investments - LGIP	\$	13,394,019
Deposits with financial institutions, demand deposits	ial institutions, demand deposits 7,284,182	
Cash on hand	2,700	
Total cash and investments	\$	20,680,901

At year-end, the District's net carrying amount of deposits was \$7,248,182 and the bank balance was \$7,945,385. Of these deposits, \$7,343,683 was not covered by the Federal Depository Insurance Corporation (FDIC) and the National Credit Union Share Insurance Fund (NCUSIF).

As required by Oregon Revised Statutes, Chapter 295, deposits in excess of insurance limits were held at qualified depositories for public funds.

The "weighted average maturity in years" calculation assumes that all investments are held until maturity.

As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy limits investments to no more than 18 months.

Custodial credit risk, for deposits, is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As required by Oregon Revised Statutes, Chapter 295, deposits in excess of FDIC and NCUSIF coverage were held at qualified depositories for public funds.

NOTE 2 – CASH AND INVESTMENTS (continued)

All qualified depositories for public funds are included in the multiple financial institution collateral pool that is maintained by and in the name of the Office of the State Treasurer. As a result, the District has no exposure to custodial credit risk for deposits with financial institutions.

Custodial credit risk, for investments, is the risk that, in the event of the failure of the counter-party, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the District's total investments, the District has no custodial credit risk.

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool.

The District has invested funds in the State Treasurer's Oregon Short-term Fund Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board. Investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool.

In addition, the Oregon State Treasury LGIP distributes investment income on an amortized cost basis and participants' equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the District's cash position.

Investments in the Oregon State Treasury LGIP are made under the provisions of ORS 294.035 and 294.810. These funds are held in the District's name and are not subject to collateralization requirements of ORS 295.015. Investments are stated at amortized cost, which approximated fair value.

As of June 30, 2020 and for the year then ended, the District was in compliance with the aforementioned State of Oregon statutes.

Credit Risk - State Statutes authorize the District to invest primarily in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, banker's acceptances, certain commercial papers, and the State Treasurer's Investment Pool, among others. The District has no formal investment policy that further restricts its investment choices.

Concentration of Credit Risk - The District is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the U.S. Government. The District has no such investments.

Interest Rate Risk - The District has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

NOTE 3 - CAPITAL ASSETS

The changes in capital assets for the year ended June 30, 2020, are as follows (Governmental Activities):

	Balance July 1, 2019	Additions	Deletions	Transfers	Balance June 30, 2020
Capital assets not being depreciated: Land CIP	\$ 3,566,954 1,973,924	\$ - 	\$ - _	\$- (1,973,924)	\$ 3,566,954
Total capital assets not being depreciated	\$ 5,540,878	\$-	\$-	\$(1,973,924)	\$ 3,566,954
Capital assets being depreciated: Site improvements Buildings Equipment	\$ 6,005,132 53,743,421 4,963,998	\$ 19,419 2,572,823 99,990	\$ - - -	\$- 1,973,924 -	\$ 6,024,551 58,290,168 5,063,988
Total capital assets being depreciated	\$ 64,712,551	\$ 2,692,232	\$-	\$ 1,973,924	\$ 69,378,707
Less accumulated depreciation for: Site improvements Buildings Equipment	\$ (4,185,016) (25,243,861) (3,499,086)	\$ (220,376) (1,182,577) (211,827)	\$ - - -	\$ - - -	\$ (4,405,392) (26,426,438) (3,710,913)
Total accumulated depreciation	\$(32,927,963)	\$(1,614,780)	\$-	\$-	\$(34,542,743)
Total capital assets (net) Land CIP Site improvements Buildings Equipment	\$ 3,566,954 1,973,924 1,820,116 28,499,560 1,464,912	\$ - (200,957) 1,390,246 (111,837)	\$ - - - -	\$ - (1,973,924) - 1,973,924 -	\$ 3,566,954 - 1,619,159 31,863,730 1,353,075
Total capital assets (net)	\$ 37,325,466	\$ 1,077,452	\$-	\$-	\$ 38,402,918

Depreciation expense for the year ended June 30, 2020 was charged to the following programs:

Program:	
Instructional Services	\$ 920,425
Support Services	645,912
Community Services	48,443
Total	\$ 1,614,780

NOTE 4 – LONG-TERM DEBT

General Obligation Bonds Payable:

Series 2013 Bonds

On May 15, 2013, the District issued \$12,705,000 federally taxable Series 2013 General Obligation Refunding bonds (Series 2013 Bonds) with an interest rate that ranges between .29% and 1.84% to advance refund \$11,680,000 of outstanding Series 2004 and Series 2005 Bonds with an average interest rate of 3.91%. Both the Series 2004 and 2005 Bonds were paid in full as of June 30, 2015. The net proceeds of \$12,568,258 (after payment of \$136,742 in underwriting fees, insurance, and other issuance costs) were used to purchase certain direct US government obligations which will be deposited in the custody of the escrow agent. The maturing principal of the government obligations, interest earned thereon, and necessary cash balance, if any, will provide sufficient payments of principal and interest on the refunded portions of the Series 2004 and 2005 Bonds. As a result, the refunded portions of the Series 2004 and 2005 Bonds. As a result, the refunded portions of the series 2004 and 2005 Bonds.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$696,704. The difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to operations through the year 2020 using the effective-interest method.

Principal payments associated to the Series 2013 Bonds are due annually on December 15th and interest payments are due semiannually on June 15th and December 15th. The Series 2013 Bonds are general obligations of the District and the full faith and credit of the District is pledged to the successive owners of the Bonds. The Bonds mature on December 15, 2020 and are not subject to redemption prior to their maturity.

The Series 2013 Bonds are guaranteed by the Oregon School Bond Guaranty. Payment of the principal and interest on the Bonds when due is guaranteed by the full faith and credit of the State under the provisions of the Oregon School Bond Guaranty Act – Oregon Revised Statues 328.321 to 328.356.

Future maturities of General Obligation Bonds are as follows:

Fiscal Year Ending June 30,	Series 2013 Principal	Series 2013 Interest	Total Debt Service		
2021	1,955,000	18,006	1,973,006		
Total	\$ 1,955,000	\$ 18,006	\$ 1,973,006		

NOTE 4 – LONG-TERM DEBT (continued)

Full Faith and Credit Obligations:

Series 2004 Full Faith and Credit Obligation

On June 30, 2004, the District issued Qualified Zone Academy Bonds (QZAB) in the amount of \$2,500,000. The bonds were purchased by Bank of America in accordance with Section 1397E of the Internal Revenue Code, and as such, qualified for tax credits relating to the transaction. The bond proceeds were required to be used to provide for facility preservation and major maintenance in accordance with our QZAB financing plan.

To qualify for use of the QZAB proceeds, individual schools must qualify by meeting federal guidelines for certain economic demographics. The primary use of the funds was for renovations of the secondary schools in the District. In addition, initial funding for SB 1149 energy efficiency projects was provided by the QZAB proceeds so that projects could move forward in a timely manner.

As a result of the structure of the QZAB issue and the Bank tax credits, the District is required to repay \$1,902,965 in total payments over the 16-year term.

The District will make equal annual principal payments in the amount of \$118,935 through 2020. The payments will be placed in escrow at the purchaser's discretion, and principal payments and guaranteed interest payments on the escrow will be applied to the District obligation. The agreement contains a provision that in an event of default, the Trustee may exercise any remedy available at law or in equity. This obligation was paid in full as of June 30, 2020.

Series 2007 Full Faith and Credit Obligation

In 2007, \$1,200,000 of Full Faith and Credit obligations was issued to complete SB 1149 energy efficiency projects. The 2007 Series Agreement is payable over 15 years at 4.30%. Repayment for this obligation will be provided by ongoing SB 1149 public purpose fees on electric and natural gas utility bills. The agreement contains a provision that in an event of default, the Trustee may exercise any remedy available at law or in equity.

Future maturities of the Full Faith and Credit Obligations are as follows:

Fiscal Year Ending June 30,	Series 2007 Principal		Series 2007 Interest		De	Total bt Service
2021 2022		100,000 105,000		8,815 4,515		108,815 109,515
Total	\$	205,000	\$	13,330	\$	218,330

NOTE 4 – LONG-TERM DEBT (continued)

Pension Obligations:

Series 2002 Obligations

In October of 2002, the District participated in a pooled issuance of Series 2002A limited tax deferred interest obligations, and Series 2002B limited tax pension obligations. Certain Oregon school districts and education service districts issued limited tax obligations (Pension Obligation), the proceeds of which were used to finance a portion of the estimated unfunded actuarial liability of each issuer with the Oregon Public Employees Retirement System (PERS). The full faith and credit of the District was pledged for the punctual payment of the principal of and interest on its Pension Obligation, and debt service on the Pension Obligation is not subject to annual appropriation. The Pension Obligation is further secured by an Intercept Agreement under which an amount equal to the debt service on each issuer's Pension Obligation will be diverted from Sate Education Revenues.

The 2002A Obligations were issued in the aggregate original principal amount of \$5,197,283. Interest on the 2002A Obligations will be payable only at maturity (maturity dates range from 6/30/2004 to 6/30/2020), and will be compounded semiannually (for the accreted value of the Obligations of each maturity as of each June 30 and December 30). Interest on the 2002A Obligations ranges between 2.06% and 6.10% based upon the maturity date. The 2002A Obligations were not subject to optional prepayment prior to maturity. The agreement contains a provision that in an event of default, the Trustee may exercise any remedy available at law or in equity; however, the payments are not subject to acceleration.

The 2002B Obligations were issued in the aggregate original principal amount of \$15,150,000. Interest on the 2002B Obligations is payable semiannually June 30 and December 30 of each year until maturity (maturity dates range from 6/30/2021 to 6/30/2028). Interest on the 2002B Obligations range between 5.49% and 5.55% based upon maturity date. The 2002B Obligations maturing on June 30, 2021 are subject to prepayment prior to maturity, on or after June 30, 2007, in whole or in part. The Series 2002B Obligation maturing on June 30, 2028 is subject to mandatory prepayment prior to its stated maturity, in part, pro rata amounts the owners of the 2028 Term Obligation, on any June 30 on or after June 30, 2024, at the principal amount thereof together with accrued interest thereon to the date of prepayment, solely from mandatory sinking fund payments.

Series 2004 Obligations

In February of 2004, the District participated in a pooled issuance of Series 2004 limited tax pension obligations. Certain Oregon school districts and education service districts issued limited tax obligations (Pension Obligation), the proceeds of which were used to finance a portion of the estimated unfunded actuarial liability of each issuer with the Oregon Public Employees Retirement System (PERS). The full faith and credit of the District was pledged for the punctual payment of the principal of and interest on its Pension Obligation, and debt service on the Pension Obligation is not subject to annual appropriation.

The Pension Obligation is further secured by an Intercept Agreement under which an amount equal to the debt service on each issuer's Pension Obligation will be diverted from State Education Revenues.

The 2004 Obligations were issued in the aggregate original principal amount of \$14,900,000. Interest on the 2004 Obligations is payable semiannually on June 30 and December 30 of each year until maturity (maturity dates range from 6/30/2009 to 6/30/2028). Interest on the 2004 Obligations range between 3.66% and 5.53% based upon maturity date. The agreement contains a provision that in an event of default, the Trustee may exercise any remedy available at law or in equity; however, the payments are not subject to acceleration. The 2004 Obligations are subject to prepayment as further described in the official statement.

NOTE 4 – LONG-TERM DEBT (continued)

Pension Obligations (continued):

Series 2011 Obligations

In August of 2011, the District advance refunded the 2021 debt service requirements included in the original 2002B Bond issue. The advance refunding was evaluated based on standards for advance refunding in the State of Oregon. The full faith and credit of the District was pledged for the punctual payment of the principal of and interest on its Pension Obligation, and debt service on the Pension Obligation is not subject to annual appropriation. The Pension Obligation is further secured by an Intercept Agreement under which an amount equal to the debt service on each issuer's Pension Obligation will be diverted from Sate Education Revenues. The agreement contains a provision that in an event of default, the Trustee may exercise any remedy available at law or in equity; however, the payments are not subject to acceleration.

The 2011 Obligations were issued in the aggregate original principal amount of \$1,415,000. Interest on the 2011 Obligations is payable semiannually on June 30 and December 30 of each year to the maturity (matures on 6/30/2021) of the Series 2011 Obligations. Interest on the 2011 Obligations is computed at 4.12% per annum.

Pension Obligations General Note

The issuance of the Pension Obligations was evaluated based on advance refunding criteria. The total estimated savings over the life of the 2002 issuance was approximately \$9,586,850 and the 2004 issuance was \$6,324,000. The estimated present value savings was approximately \$5,488,750 for the 2002 issue and \$3,771,000 for the 2004 issue. The actual savings realized by the District over the life of the bonds is uncertain due to various legislative changes and legal issues pending with the PERS system, which could impact the District's future required contribution rate.

Future maturities of the Pension Obligations are as follows:

Pension Obligation	ons:							
Fiscal Year Ending June 30,	Series 2002 Principal	Series 2004 Principal	Series 2011 Principal	Total Principal	Series 2002 Interest	Series 2004 Interest	Series 2011 Interest	Total Interest
2021	-	940,000	1,415,000	2,355,000	763,503	579,696	58,227	1,401,426
2022	1,540,000	1,065,000	-	2,605,000	763,504	528,720	-	1,292,224
2023	1,735,000	1,205,000	-	2,940,000	679,112	470,433	-	1,149,545
2024	1,950,000	1,355,000	-	3,305,000	583,860	403,820	-	987,680
2025	2,180,000	1,515,000	-	3,695,000	475,636	328,916	-	804,552
2026-2028	6,390,000	4,435,000		10,825,000	644,356	445,005		1,089,361
Total	\$13,795,000	\$10,515,000	\$ 1,415,000	\$25,725,000	\$ 3,909,971	\$ 2,756,590	\$ 58,227	\$ 6,724,788

Pension Obligations:

NOTE 4 – LONG-TERM DEBT (continued)

Changes in long-term debt for the year ended June 30, 2020, are as follows:

	Original Issue	Outstanding July 1, 2019	Issued	Matured	Outstanding June 30, 2020	Due in One Year
General Obligation Bonds:			•	• /• /•• •••		
Series 2013	\$12,705,000	\$ 4,135,000	\$ -	\$ (2,180,000)	\$ 1,955,000	\$ 1,955,000
Full Faith and Credit Obligations:						
Series 2004 (QZAB) (direct borrowing)	2,500,000	118,935	-	(118,935)	-	-
Series 2007 (direct borrowing)	1,200,000	301,000	-	(96,000)	205,000	100,000
Total Full Faith and Credit Obligation	419,935		(214,935)	205,000	100,000	
Pension Obligations:						
Series 2002	20,347,283	14,227,388	-	(432,388)	13,795,000	-
Series 2004	14,900,000	11,340,000	-	(825,000)	10,515,000	940,000
Series 2011	1,415,000	1,415,000	-		1,415,000	1,415,000
Total Pension Obligations		26,982,388		(1,257,388)	25,725,000	2,355,000
Total Long Term Debt		\$31,537,323	\$ -	\$ (3,652,323)	\$27,885,000	\$ 4,410,000
Deferred Charge on Refunding (G.O. Bonds)	\$ (131,599)	\$-	\$ 92,894	\$ (38,705)	\$ 38,705	

NOTE 5 - INTERFUND TRANSACTIONS

Inter-fund transfers for the year ended June 30, 2020 are as follows:

	Transfers In		Tra	ansfers Out
General Fund	\$	-	\$	2,138,531
Special Revenue Fund	Fund 639,596			-
Debt Service Fund	227,878			-
Capital Projects Fund		1,380,000		108,943
Total Transfers	\$	2,247,474	\$	2,247,474

The District made transfers from the General Fund to the Capital Projects Fund to fund major capital projects, to the Special Revenue Fund to support district curriculum needs and technology purchases, to fund replacement vehicle purchases, and to the Debt Service Fund to make the required annual bond payments.

NOTE 6 – OPERATING LEASES

The District has operating leases associated with office equipment. Total expense for such leases was \$55,501 for the year ended June 30, 2020. The future minimum lease payments for these leases are as follows:

Year Ended June 30,	
2021	\$ 12,471
Total	\$ 12,471

NOTE 7 – ACCRUED COMPENSATED ABSENCES

The changes in accrued compensated absences for the year ended June 30, 2020 are as follows:

	-	ccrued 30, 2019	Earned	Taken	-	ccrued e 30, 2020	 ıe Within ne Year
Governmental Activities	\$	41,148	\$ 288,106	\$ 275,526	\$	53,728	\$ 53,728

It is the District's opinion that the liability is current in nature as it has capped amounts which can be earned to encourage employees to take their vacation annually. The Special Revenue Fund and General Funds are typically used to liquidate this liability.

NOTE 8 – PENSION AND RETIREMENT PLANS

Tax Sheltered Annuity Plan

The District offers its employees a tax deferred annuity program established pursuant to Section 403(b) of the Internal Revenue Code (the Code). Contributions are made through salary reductions from participating employees up to the amounts specified in the Code. A \$20.00 licensed employee, \$20.00 classified employee, and a \$75.00 administrative employee monthly contribution is required from the District as a matching contribution for participating employees who are not eligible for early retirement benefits. 341 employees are currently receiving matching contributions and as of June 30, 2020, 341 employees were participating in the plan.

Early Retirement Stipend Pension Plan

Plan Description – The District maintains a single-employer defined benefit pension early retirement supplemental plan for eligible teachers and administrators of the District (not administered through a trust). The program generally covers licensed and administrative staff that have been continuously employed since 1990 and who remain employed by the District until they reach retirement age. Upon reaching age 55 (and having at least 9-10 years of service as of June 30, 2000 – sunset date), an employee may elect early retirement. A stipend from the District is calculated by multiplying the stipend factor (between .833%-1.5%) times the final salary, times years of service (with a 12-year maximum). The maximum stipend factor is between 10%-18% depending on the age elected for retirement (i.e. 10% if elected retirement at age 55 vs. 18% if elected retirement at age 58). The stipend is paid to the participant until age 62 unless the retiree resumes participation in the Public Employees Retirement System (PERS) in any employment capacity.

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

Early Retirement Stipend Pension Plan (continued)

Funding Policy – The benefits from this program are fully paid by the District and, consequently, no contributions by employees are required. The District funds this benefit as it comes due and the amount estimated to be paid by the District for the benefit for the period ended June 30, 2020 was \$101,145. There are no assets accumulated in a trust.

Employees Covered by Benefit Terms – As of June 30, 2020, the following employees were covered by the stipend benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	13
Active plan members	19
	32

Total Stipend Pension Liability – The District's total stipend pension liability of \$375,993 was measured as of June 30, 2020, and was determined by an actuarial valuation date as of July 1, 2018.

Actuarial Assumptions and Other Inputs – The total stipend pension liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Input	Assumption
Actuarial Cost Method	Early age normal, level percent of salary
Interest Rate Utilized for Discounting	3.5% per year, based on all years discounted at municipal bond rate
General Inflation	2.5% per year
Salary Scale	3.0% per year
Salary Merit Scale	Total payroll increase is overall payroll growth
Annual Premium Increase Rate	Between 5% and 6.5% annually (district portion was assumed 2.5% annually)
Mortality Rates	RP 2000 male and female tables
Turnover Rates	As developed for the valuation of benefits under Oregon PERS, depending on YOS
Disability Rates	As developed for the valuation of benefits under Oregon PERS, age dependent
Retirement Rates	As developed for the valuation of benefits under Oregon PERS
Plan Enrollment	Current and future retirees are assumed to remain enrolled in the plans in which currently enrolled

Changes in the Stipend Pension Liability -

.

Stipend Pension Liability as of June 30, 2019	\$ 454,581
Changes for the year:	
Service cost	8,132
Interest	14,425
Benefit payments	 (101,145)
	 _
Stipend Pension Liability as of June 30, 2020	\$ 375,993

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

Early Retirement Stipend Pension Plan (continued)

Sensitivity of the Total Stipend Pension Liability to Changes in the Discount Rate – The following presents the total stipend pension liability of the District, as well as what the District's total pension stipend liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

	1%	Current	
District's Net Pension	Decrease	Discount	1% Increase
Asset/(Liability)	Rate 2.5%	Rate 3.5%	Rate 4.5%
Total Stipend Pension Liaiblity	\$ 385,255	\$ 375,993	\$ 366,640

Stipend Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources – For the year ended June 30, 2020, the District recognized a reduction in stipend pension expense of \$78,588. As of June 30, 2020, the District reported no deferred outflows or inflows associated with its stipend pension plan.

OPERS Plan

Plan Description - Employees are provided pensions as participants under one or more plans currently available through Oregon Public Employees Retirement System (OPERS), a cost-sharing multiple-employer defined benefit plan in accordance with Oregon Revised Statutes Chapter 238, Chapter 23A, and Internal Revenue Service Code Section 401(a).

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPSRP is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The ORS Chapter 238 Defined Benefit Plan was closed to new members hired on or after August 29, 2003. In 1995, the Oregon Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

Beginning January 1, 2004, PERS active Tier One or Tier Two members became members of the OPSRP IAP Program. OPERS plan member contributions (the employee contribution, whether made by the employee or "picked-up" by the employer) go into the IAP portion of OPSRP. OPERS plan members retain their existing OPERS accounts; however, member contributions after January 1, 2004 are deposited in the member's IAP, not into the member's OPERS account.

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

OPERS Plan (continued)

Tier One/Tier Two Retirement Benefit (Chapter 238) -

Pension Benefits - The OPERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for General Service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General Service employees may retire after reaching age 55. Tier One General Service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan was closed to new members hired on or after August 29, 2003.

Death Benefits - Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- Member was employed by an OPERS employer at the time of death,
- Member died within 120 days after termination of OPERS-covered employment,
- · Member died as a result of injury sustained while employed in an OPERS-covered job, or
- Member was on an official leave of absence from an OPERS-covered job at the time of death.

Disability Benefits - A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member for disability benefits regardless of the length of OPERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

Benefit Changes After Retirement - Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of the underlying global equity investments of that account.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

OPERS Plan (continued)

OPSRP Pension Program (Chapter 238A) –

Pension Benefits - The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

General Service - 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for General Service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits - Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits - A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes After Retirement - Under ORS 238.360, monthly benefits are adjusted annually through cost-of-living adjustment (COLA). The COLA is capped at 2.0 percent.

Funding Policy - OPERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due.

Contributions - OPERS' funding policy provides for periodic member and employer contributions at rates established by the Public Employees Retirement Board, subject to limits set in statute. The rates established for member and employer contributions were approved based on the recommendations of the System's third-party actuary.

The District's employer contributions for the year ended June 30, 2020 were 6,039,911 excluding amounts to fund employer specific liabilities. The contribution rates in effect for the period July 1, 2019 through June 30, 2021 for each pension program were: Tier1/Tier 2 – 16.79%, and OPSRP General Service – 11.34%.

Oregon PERS Comprehensive Annual Financial Report (CAFR) - OPERS prepares their financial statements in accordance with GAAP as set forth in GASB pronouncements that apply to fiduciary funds and enterprise funds. The accrual basis of accounting is used for all funds. Reveneus are recognized when earned. Contributions recognized when due, pursuant to legal (or statutory) requirements. Benefits and withdrawals are recognized when they are currently due and payable in accordance with the terms of the plans. Investments are recognized at fair value, the amount that could be received to sell an asset or paid to transfer a liability in an orderly trasaction in between market participants at the measurement date. OPERS produces an independently audited CAFR which can be found at:

http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

OPERS Plan (continued)

Actuarial Valuation - The employer contribution rates effective July 1, 2019, through June 30, 2021, were set using the entry age normal actuarial cost method. Under this cost method, each active member's entry age present value of projected benefits is allocated over the member's service from their date of entry until their assumed date of exit, taking into consideration expected future compensation increases.

Actuarial Methods and Assumptions Used in Developing Total Pension Liability -

Valuation date	December 31, 2017
Measurement date	June 30, 2019
Experience study	2016, published July 26, 2017
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Inflation rate	2.50 percent
Long-term expected rate of return1	7.20 percent
Discount rate	7.20 percent
Projected salary increases	3.50 percent
Cost of living adjustments (COLA)	Blend of 2.00% COLA and graded COLA
	(1.25%/0.15%) in accordance with Moro
	decision; blend based on service.
Mortality	Healthy retirees and beneficiaries:
·····	RP-2014 Healthy annuitant, sex-distinct,
	generational with Unisex, Social Security Data
	Scale, with collar adjustments and set-backs as
	described in the valuation.
	Active members:
	RP-2014 Employees, sex-distinct, generational
	with Unisex, Social Security Data Scale, with collar
	adjustments and set-backs as described in the
	valuation.
	Disabled retirees:
	RP-2014 Disabled retirees, sex-distinct,
	generational with Unisex, Social Security Data
	Scale.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2016 Experience Study, which reviewed experience for the four-year period ending on December 31, 2016.

Discount Rate - The discount rate used to measure the total pension liability was 7.20 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

OPERS Plan (continued)

Assumed Asset Allocation -

Asset Class	Target Allocation
Cash	0.00%
Debt securities	20.00%
Public equity	37.50%
Private equity	17.50%
Real estate	12.50%
Alternative equity	12.50%
Opportunity portfolio	0.00%
Total	100.00%

Investment Rate of Return - To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the OPERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at the time based on the OIC long-term target asset allocation. The OIC's description of each asset was used to map the target allocation to the asset classes shown below:

Asset Class	Target Allocation	Compounded Annual Return
Core fixed income	8.00%	3.49%
Short-term bonds	8.00%	3.38%
Bank/leveraged loans	3.00%	5.09%
High yield bonds	1.00%	6.45%
Large/Mid cap US equities	15.75%	6.30%
Small cap US equities	1.31%	6.69%
Micro cap US equities	1.31%	6.80%
Developed foreign equities	13.13%	6.71%
Emerging market equities	4.12%	7.45%
Non-US small cap equities	1.88%	7.01%
Private equities	17.50%	7.82%
Real estate (property)	10.00%	5.51%
Real estate (REITS)	2.50%	6.37%
Hedge fund of funds - diversified	2.50%	4.09%
Hedge fund - event-driven	0.63%	5.86%
Timber	1.88%	5.62%
Farmland	1.88%	6.15%
Infrastructure	3.75%	6.60%
Commodities	1.86%	3.84%
Total	100.00%	
A 1 . 0 . 1		0.50%

2.50%

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

OPERS Plan (continued)

Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions –

As of June 30, 2020, the District reported a liability of \$36,257,299 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. The District's proportion of the net pension liability was based on the District's long-term contribution effort to the pension plan compared with the total projected long-term contribution effort of all participating employers, actuarially determined. As of June 30, 2019, the District's proportion was approximately 0.20960878 percent.

For the year ended June 30, 2020, the District recognized pension expense of \$2,994,855. The \$2,994,855 was treated as an increase of payroll related expense in the Statement of Activities

As of June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			
Differences between expected and actual experience Change of assumptions Net difference between projected and actual earnings on investments Changes in proportionate share Difference in proportion and contribution differences District's contributions subsequent to the measurement date District's contributions to side account subsequent to the measurement date:	\$	1,999,483 4,918,716 - 1,889,942 3,894,454 6,039,911 2,593,422	\$	- (1,027,858) (4,875,604) (1,421,372) -
Total	\$	21,335,928	\$	(7,324,834)

The \$6,039,911 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2021.

The \$2,593,422 reported as deferred outflows of resources related to pensions resulting from District contributions to side account subsequent to the measurement date consist of a \$874,738 contribution to the District's established OPERS side account and a match of \$1,718,684 by Oregon's Employer Incentive Fund (EIF) Program.

Side accounts are an increase in an employer's assets, reducing the gap between assets and liabilities, thereby reducing the employer's UAL. Side accounts are invested by the Oregon State Treasury in the Oregon Public Employees Retirement Fund (OPERF). Earnings or losses are applied to the account at the end of each year. This account is attributed solely to the employer making the payment and is held separate from other employer reserves.

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

OPERS Plan (continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources (prior to postmeasurement date contributions) related to pensions will be recognized in pension expense or (expense reduction) as follows:

Year Ended	Deferred	Deferred Outflow/Inflow of		
June 30,	R	esources		
2021	\$	3,337,322		
2022		283,292		
2023		1,052,759		
2024		686,281		
2025		18,108		
Thereafter		-		
Total	\$	5,377,761		

Sensitivity for the District's Proportionate Share of the Net Pension Liability to Changes in Discount Rate –

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percent lower (6.20 percent) or one percent higher (8.20 percent) than the current rate:

		Current	
District's Net Pension	1% Decrease	Discount Rate	1% Increase
Asset/(Liability)	(6.20%)	(7.20%)	(8.20%)
Defined Benefit Pension	\$ 58,062,848	\$ 36,257,299	\$ 18,009,059

Changes in Assumptions and Methods -

A summary of key changes implemented since the December 31, 2017 valuation are noted below. Additional detail and list of changes can be found in the 2018 Experience Study for the System, which can be found at: <u>https://www.oregon.gov/pers/Documents/Exp_Study_2018.pdf</u>

- Assumed administrative expenses were updated for both Tier 1/Tier 2 and OPSRP.
- Mortality assumptions were changed to reflect recently published base mortality tables and mortality improvement projection scales for all groups.
- Termination, disability and retirement rates were updated for some groups to more closely match observed experience.
- Assumptions for merit increases, unused sick leave, and vacation pay were updated.
- The assumed healthcare cost trend rates for RHIPA program as well as the participation assumptions for both RHIA and RHIPA were updated.
- Senate Bill 1049 was signed into law June 2019 and requires a one-time re-amortization of Tier 1/Tier 2 UAL over a closed 22-year period at the December 31, 2019 rate-setting actuarial valuation, which will set actuarially determined contribution rates for the 2021-2023 biennium.
- The percentages used for allocating accrued liability for Tier 1/Tier 2 active members who have earned service with multiple PERS employers were updated

NOTE 8 – PENSION AND RETIREMENT PLANS (continued)

Defined Contribution Plan – Individual Account Program (IAP)

Pension Benefits - Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. The IAP is an individual account-based program under the PERS tax-qualified governmental plan as defined under ORS 238A.400. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. All covered employees are required by State statute to contribute 6% of their salary to the plan. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP Individual Account Program (IAP) may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5, 10, 15, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits - Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions – During 2020, the District, as an employee benefit, paid the employee portion of the contribution. Employer contributions for the year ended June 30, 2020 were \$1,816,750.

NOTE 9 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

The District has two separate other post-employment benefits (OPEB) plans. The District provides a single employer defined benefit health care plan to staff that were hired before July 1, 2003 and the District contributes to the State of Oregon's PERS cost-sharing multiple employer defined benefit plan.

Single-Employer Defined Benefit Health Care Plan (Medical Subsidy)

Plan Description – The District maintains a single-employer defined benefit OPEB plan that provides post-employment health benefits to eligible employees and their spouses. Generally, the program covers all eligible employees who had 10 years or more of service as of June 30, 2000 (sunset date), who remain employed by the District until they reach retirement age. An eligible employee qualifies for 50% of the current medical insurance benefit premium if they elect to retire on June 30 following their 55th birthday. If an eligible employee elects to receive the retirement benefit before age 58, they must be continuing paying 50% of the premium for the duration of coverage. An eligible employee qualifies for 100% of the current medical insurance benefit premium if they elect to retire at age 58. The program covers employees who have qualified for early retirement to receive health insurance benefits until they reach age sixty-five.

NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

Single-Employer Defined Benefit Health Care Plan (continued)

In addition, the District's post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303, which requires that all eligible retirees are allowed to continue receiving health insurance benefits, at their cost, until age 65 or they become otherwise eligible for Medicare. ORS stipulate that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The requirement to make available to retirees (at the retirees own cost) access in to the healthcare plan has an implicit cost to the district.

Funding Policy – The benefits from the single-employer defined benefit OPEB plan are paid by the District based on bargaining agreement language and contributions by employees are also required. The plan is not accounted for in a pension trust fund; therefore, designated funds are not legally restricted to pay future benefits. The benefits from the healthcare plan established in accordance with ORS 243.303 are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance. The District did not establish an irrevocable trust (or equivalent arrangement) to account for the plan.

Employees Covered by Benefit Terms – The explicit benefit for the single-employer defined benefit OPEB plan was ceased to all employees entering employment subsequent to June 30, 2000. As a result, the total plan members receiving the explicit benefit will decrease over time. As of June 30, 2020, the following employees were covered by the explicit benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	64
Active plan members	29
	93

Total OPEB Liability – The districts total OPEB liability of \$4,870,406 was measured as of June 30, 2020, and was determined by an actuarial valuation date as of July 1, 2018.

Actuarial Assumptions and Other Inputs – The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Input	Assumption
Actuarial Cost Method	Early age normal, level percent of salary
Interest Rate Utilized for Discounting	3.5% per year, based on all years discounted at municipal bond rate
General Inflation	2.5% per year
Salary Scale	3.5% per year
Salary Merit Scale	Total payroll increase is overall payroll growth plus merit table
Annual Premium Increase Rate	Between 5% and 6.5% annually (district portion was assumed 2.5% to 3.8% annually)
Mortality Rates	RP 2014 male and female tables
Turnover Rates	As developed for the valuation of benefits under Oregon PERS, depending on YOS
Disability Rates	As developed for the valuation of benefits under Oregon PERS, age dependent
Retirement Rates	As developed for the valuation of benefits under Oregon PERS
Plan Enrollment	Current and future retirees are assumed to remain enrolled in the plans in which currently enrolled
Marital Status	70% of future retirees electing coverage are assumed to cover a spouse as well
Coverage of Elgible Children	We have assumed no impact of dependent children on the implicit subsidy

NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

Single-Employer Defined Benefit Health Care Plan (continued)

Changes in the Total OPEB Liability -

OPEB Liability as of June 30, 2019	\$ 5,154,925
Changes for the year:	
Service cost	199,263
Interest	224,991
Benefit payments	(708,773)
OPEB Liability as of June 30, 2020	\$ 4,870,406

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

District's Net Pension	1% Decrease Rate	Current Discount	1% Increase Rate
Asset/(Liability)	2.5%	Rate 3.5%	4.5%
Total OPEB Liability	\$ 5,096,921	\$ 4,870,406	\$ 4,559,944

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates – The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rates:

		Current Trend Rate	
District's Net Pension	1% Decrease 6%	7% Graded Down to	1% Increase 8%
Asset/(Liability)	Graded Down to 4%	5%Trend Rates	Graded Down to 6%
Total OPEB Liability	\$ 4,384,738	\$ 4,870,406	\$ 5,325,555

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources – For the year ended June 30, 2020, the District recognized a reduction of expense related to OPEB of \$354,017.

As of June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		ed (Inflows) esources
Differences between expected and actual experience:			\$ (143,104)
Change of assumptions or other input:	-		(134,888)
Total	\$-	_	\$ (277,992)

2021 2022 2023 2024 2025 Thereafter	\$	(69,498) (69,498) (69,498) (69,498) - -
Total	\$	(277,992)

Retirement Health Insurance Account (RHIA)

Plan Description - As a member of Oregon Public Employees Retirement System (OPERS), the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other post-employment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants hired on or after August 29, 2003.

OPEB Benefits - Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410.

To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from PERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Contributions - Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS. The District contributed \$29,097 for the year ended June 30, 2020. The contribution rates in effect for the period July 1, 2019 through June 30, 2020 for the OPEB program were: Tier1/Tier 2 - 0.06%, and OPSRP general service - 0.00%.

NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

Retirement Health Insurance Account (RHIA) (continued)

Oregon PERS Comprehensive Annual Financial Report (CAFR)

Oregon PERS produces an independently audited CAFR which can be found at:

http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx

Actuarial Valuation

The actuarial valuation used for RHIA is identical to the actuarial valuation details related to the OPERS Plan disclosed in *Note 6 – Defined Benefit Pension Plan* except the table listed below:

Actuarial assumptions:

Retiree healthcare participation Healthcare cost trend rate Healthy retirees: 35%; Disabled retirees: 20% Not applicable

The actuarial valuation details are the Actuarial Methods and Assumptions, Discount Rate, Assumed Asset Allocation, Investment Rate of Return, and Mortality Tables.

OPEB Liabilities/Assets, **OPEB** Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

As of June 30, 2020, the District reported \$529,479 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2019, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2017. The District's proportion of the net OPEB asset was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. As of June 30, 2019 the District's proportion was approximately 0.27400606 percent.

For the year ended June 30, 2020, the District recognized a decrease of OPEB expense related to RHIA of \$99,795. The \$99,765 was treated as a decrease of payroll related expense in the Statement of Activities.

NOTE 9 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

Retirement Health Insurance Account (RHIA) (continued)

As of June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		of Resources	
Differences between expected and actual experience	\$	-	\$	(69,822)
Change of assumptions		-		(549)
Net difference between projected and actual earnings on investments		-		(32,682)
Changes in proportionate share		-		(1,920)
District's contributions subsequent to the measurement date		29,097		-
Total	\$	29,097	\$	(104,973)

The \$29,097 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as an increase to the net OPEB asset in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources (prior to postmeasurement date contributions) related to OPEB will be recognized in pension expense as follows:

Year Ended June 30	Deferred Outlow/(Inflow of Resources	
2021	\$	(54,330)
2022		(47,916)
2023		(6,092)
2024		3,366
2025		-
Thereafter		-
Total	\$	(104,973)

NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

Retirement Health Insurance Account (RHIA) (continued)

Sensitivity for the District's Proportionate Share of the Net OPEB Asset to Changes in Discount Rate

The following presents the District's proportionate share of the net OPEB asset calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1-percentage point lower (6.20 percent) or 1-percentage point higher (8.20 percent) than the current rate:

		Current	
District's Net OPEB	1% Decrease	Discount Rate	1% Increase
Asset/(Liability)	(6.20%)	(7.20%)	(8.20%)
Retirement Health Insurance Account	\$ 410,483	\$ 529,479	\$ 630,872

The RHIA OPEB is unaffected by healthcare cost trends due to the benefit being limited to \$60 monthly payments toward Medicare companion insurance premiums.

Changes in Assumptions

The changes in assumptions used for RHIA are identical to the changes in assumptions related to the OPERS Plan disclosed in *Note 8 – Defined Benefit Pension Plan*.

NOTE 10 - CURRENT VULNERABILITY DUE TO CERTAIN CONCENTRATIONS

The District's operations are concentrated within Douglas County. In addition, substantially all the District's revenues for continuing operations are from federal, state, and local government agencies. In the normal course of operations, the District receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

NOTE 11 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. The District carries commercial insurance for these risks of loss.

NOTE 12 – CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by these agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the District. The amount, if any, of costs which may be disallowed by the grantor cannot be determined at this time, although District management expects such amounts, if any, to be immaterial.

NOTE 13 – UNCERTAINTIES

In March 2020, the World Health Organization recognized the novel strain of coronavirus, COVID-19, as a pandemic. The coronavirus outbreak has severely restricted the level of economic activity around the world. In response to this coronavirus outbreak, the governments of many countries, states, cities and other geographic regions have taken preventative or protective actions, such as imposing restrictions on travel, business operations as well as public education and advising or requiring individuals to limit or forgo their time outside of their homes. Temporary closures of businesses and schools have been ordered and numerous other businesses have temporarily closed voluntarily or restricted access to their premises. The District, along with Districts across the country, have had to make significant changes to accommodate distance learning for teachers and students during stay at home orders. A significant portion of the District's funding is derived from the attendance of students in its schools. It is unclear at this point, as a result of government impositions, how federal funding will be allocated in the coming year. Given the uncertainty regarding the spread of the coronavirus, the related financial and operational impact cannot be reasonably predicted or estimated at this time.

NOTE 14 – FUND BALANCE AND NET POSITION

Amounts on the Governmental Funds Balance Sheet are committed for the following:

Special Revenue Fund	 Amount				
Miscellaneous grants	\$ 538,550				
Technology education program	146,042				
Instructional needs	403,995				
Rental properties	228,376				
Purchase of vehicles	97,908				
Associated student body accounts	959,031				
Breakfast and lunch program	 1,043,098				
Total Committed Funds	\$ 3,417,000				

NOTE 15 - TAX ABATEMENTS

As of June 30, 2020, Douglas County provides certain tax abatement programs that impact the District. Those programs are as follows:

Non-Profit Low Income Rental Housing (ORS 307.515)

The largest abatement program for Douglas County is the Non-Profit Low Income Rental Housing. In 1985, Oregon legislature authorized a property tax exemption for low-income housing held by charitable, nonprofit organizations. The tax exemption is intended to benefit low-income renters by alleviating the property tax burden on those agencies that provide this type of housing. The qualifying property must be located within the County.

Charitable, nonprofit organizations that provide housing to low-income persons are eligible, and must be certified by the Internal Revenue Service as 501(c)(3) or (4) organization. Organizations must own or have a leasehold interest in the property or participate in a partnership as long as the non-profit organization is responsible for the day-to-day management of the property. Applicants who are leaseholders must have a signed leasehold agreement by the application deadline. Vacant land intended to be developed as low-income housing is also eligible for the exemption.

The property tax exemption applies only to the tax levy of a governing body that adopts the provisions of ORS 307.515.

NOTE 15 – TAX ABATEMENTS (continued)

Enterprise Zone (ORS 285.597)

The Oregon Enterprise Zone program is a State of Oregon economic development program, that allows for property tax exemptions for up to five years. In exchange for receiving property tax exemption, participating firms are required to meet the program requirements set by state statute and the local sponsor.

The Enterprise Zone program provides qualified firms that will be making a substantial new capital investment within the defined enterprise zone, a waiver of 100% of the amount of real property taxes attributable to the new investment for a period of five years following completion of the new investment. Land or existing machinery or equipment is not tax exempt; therefore, there is no loss of current property tax levies to local taxing jurisdiction.

For the fiscal year ended June 30, 2020, Douglas County abated property taxes totaling \$90,087 under these programs:

Tax Abatement Program	Aba	Amount of Taxes Abated during the Fiscal Year					
Non-Profit Low Income Rental Housing Enterprise Zone	\$	35,020 55,067					
	\$	90,087					

NOTE 16 - SUBSEQUENT EVENTS

Management of the District has evaluated events and transactions occurring after June 30, 2020 through December 17, 2020, the date the financial statements were available for issuance, for recognition and/or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT REQUIRED BY STATE REGULATIONS

P: 541.773.6633 F: 541.773.1965 KDPLLP.COM

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors Douglas County School District No. 4 Roseburg, Oregon 97470

We have audited the basic financial statements of Douglas County School District No. 4 (the District) as of and for the year ended June 30, 2020, and have issued our report thereon dated December 17, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-0000 through 162-010-3200 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not the objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures but were not limited to the following:

- Deposit of public funds with financial institutions under ORS Chapter 295.
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required under ORS Chapter 294.
- Insurance and fidelity under bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing under ORS Chapters 279A, 279B, 279C.
- State school fund factors and calculation.

In connection with our audit, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administration Rules 162-010-0000 through 162-010-3200 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-010-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Restrictions on Use

This report is intended solely for the information and use of the District's Board, Management of the District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

ITEMS REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Douglas County School District No. 4 Roseburg, Oregon 97470

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the Unites States, the financial statements of the governmental activities and each major fund of Douglas County School District No. 4 (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 17, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

To the Board of Directors Douglas County School District No. 4 Roseburg, Oregon 97470

Report on Compliance for Each Major Federal Program

We have audited Douglas County School District No. 4's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Program

In our opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered The District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that a material weakness in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

DOUGLAS COUNTY SCHOOL DISTRICT NO. 4 NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2020

NOTE A - BASIS OF PRESENTATION

The schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Douglas County School District No. 4 (the District) under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, and changes in fund balance of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C – FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

NOTE D – INDIRECT COST RATE

The District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE E – SCHOOLS AND ROADS – GRANTS TO COUNTIES

The District includes Schools and Roads – Grants to Counties in the schedule due to requirements of the Oregon Department of Education. These expenditures are not subject to the Uniform guidance audit due to the treatment based on guidance provided by both the Oregon Department of Education and the United States Department of Agriculture.

DOUGLAS COUNTY SCHOOL DISTRICT NO. 4 SCHEDULE OF FINDINGS AND QUESTIONED COSTS JUNE 30, 2020

SECTION I - SUMMARY OF AUDITOR'S RESULTS

Financial Statements

- 1. The auditor's report expresses an unmodified opinion on the basic financial statements of the District.
- No significant deficiencies or material weaknesses relating to the audit of the financial statements are reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the basic financial statements of the District were disclosed during the audit.
- 4. No significant deficiencies or material weaknesses relating to the audit of the major federal award programs are reported in the Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance required by the Uniform Guidance.
- 5. The Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance required by the Uniform Guidance for the major federal award programs for the District expressed an unmodified opinion.
- 6. There were no audit findings that are required to be reported in accordance with the Uniform Guidance reported in this schedule.
- 7. The programs tested as major were:

U.S. Department of Education: Child Nutrition Cluster

CFDA: #10.553, 10.555, 10.556, & 10.559

- 8. The threshold for distinguishing Types A and B Programs was \$750,000.
- 9. The district qualified as a low-risk auditee under the criteria specified in the Uniform Guidance.
